SMART TECHNOLOGY

Changing the Way We Work & Play

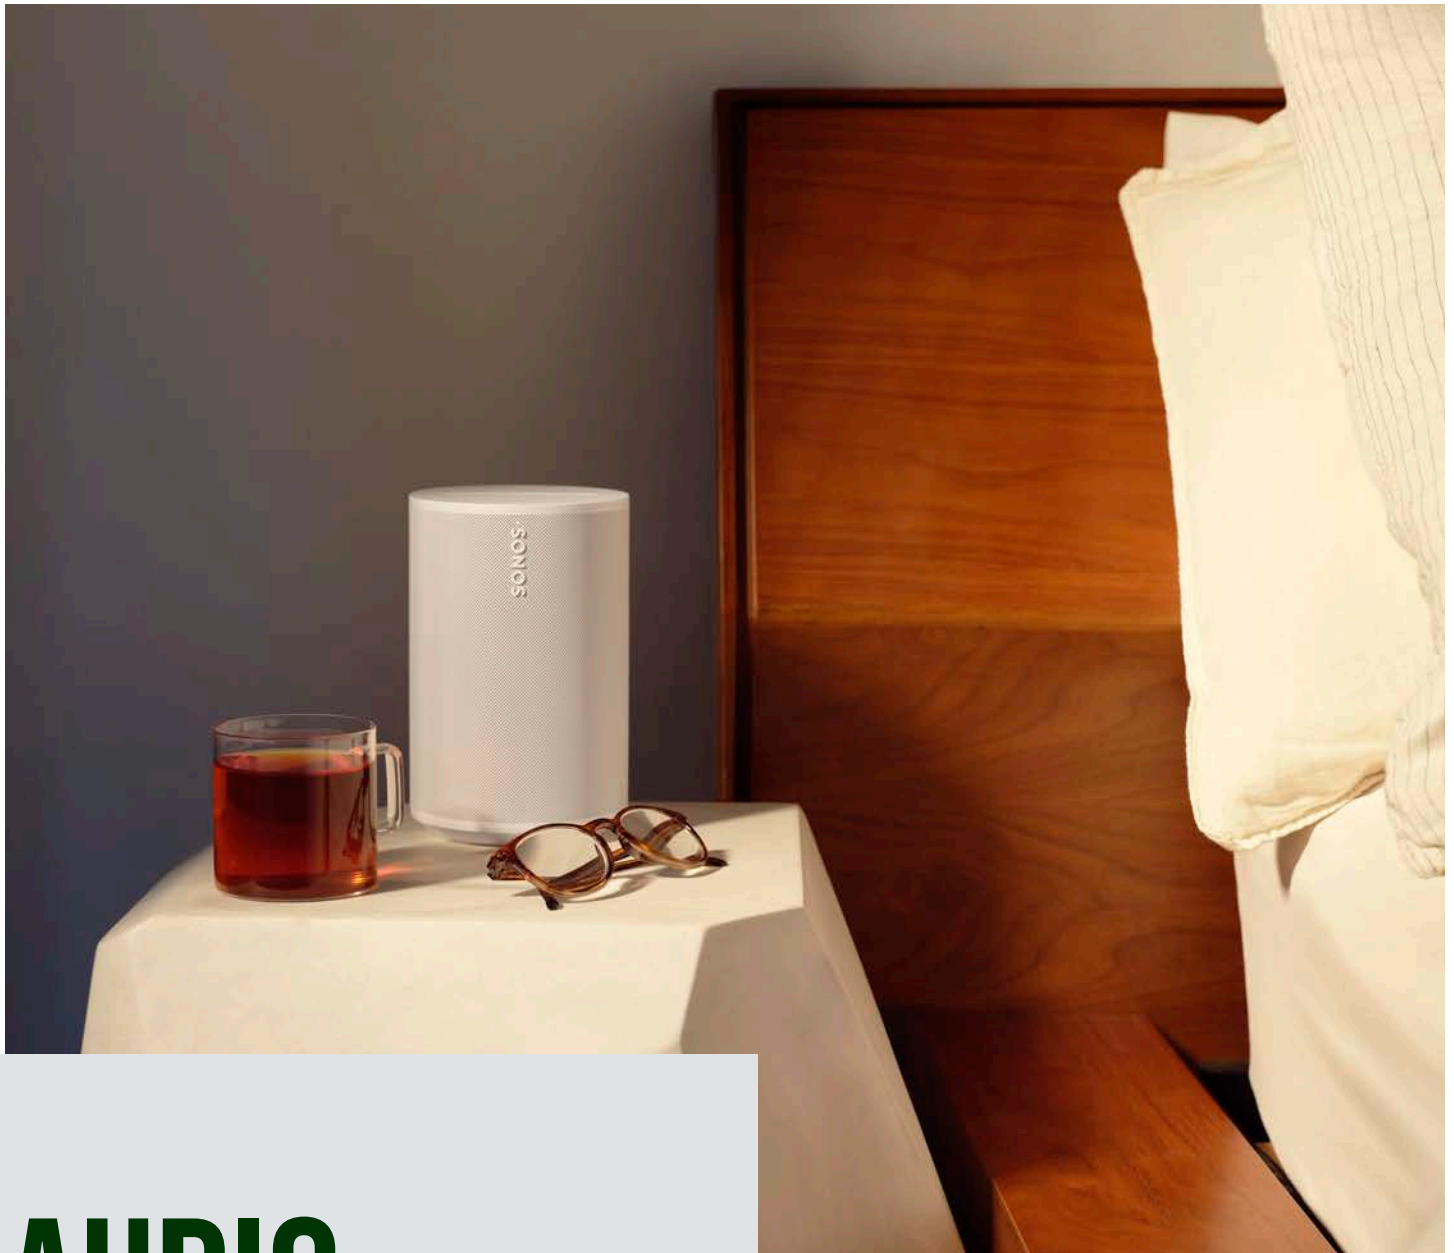

THE FUTURE IS HERE

The incredible Internet of Things has enabled our residences to become so much more than just the four walls that we call home. Today, our homes are smarter, more energy-efficient, safer, and more secure — all thanks to something called smart home technology.

WORKING WITH A SMART TECH INTEGRATOR

Smart technology integrators are trained and experienced when it comes to designing and installing smart technology ecosystems that completely revolutionize the way we live and work. It's crucial that the smart technology framework is thoroughly designed to ensure each of its systems will work together seamlessly. Failing to do this until after the final stages of the construction process will make smart tech integration all that much harder — and more expensive.

Eco Smart Home Pros' team is armed with the right tools, resources, and years of experience to design and implement some of the most intelligent homes found today. These are certified programmers, installers, and computer networking specialists who have years of experience in customizing electronic systems for commercial and residential spaces.

AUDIO SOLUTIONS

Smart audio solutions are music to our ears. With the right A/V system, we can combine both your music and video services into one seamless solution that you can control remotely with your phone, tablet, remote, or your voice.

IN THIS SECTION

Artnovian Acoustics

Denon

Felt Right

Origin Acoustics

SONOS

ARTNOVIAN ACOUSTICS

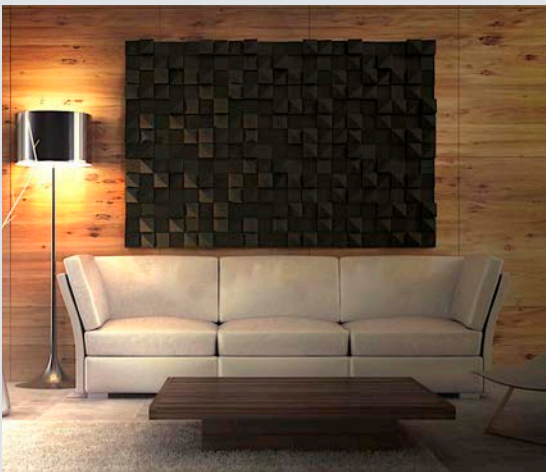

Customizable acoustic paneling perfect for home cinemas and media rooms to reduce excessive reverberation and improve speech intelligibility

Artnovion Acoustics offers a variety of colors, styles, and prints on their expertly engineered panels that were specifically designed to handle all ranges of sounds. This enables the highest level of customization and design for any space.

ABSORBER CORE

Removes energy from incoming sound waves, reducing reflections and overall reverberation time.

DIFFUSER CORE

Scatters energy over a wide area, creating a homogenous sound field.

BASS TRAP CORE

Reduces low-frequency room modes, diminishing the effect of standing waves.

DENON

Home audio at its peak

Denon has been pushing audio boundaries for over a century, making more technological innovations over the course of time than their competitors. Thanks to their HEOS® Built-in app, you can make all your Denon products work together for the best audio streaming experience possible.

DENON

FELT RIGHT

Sustainable sound-dampening solutions

Create a multifunctional, soundproof haven in your home with Felt Right recycled felt tiles. Converting single-use plastic waste into sound-absorbing felt tiles, Felt Right incorporates fun designs, shapes, and colors for ultimate customizability.

ORIGIN ACOUSTICS

A Speaker for Every Space

Origin Acoustics believes there's a perfect speaker out there for every space — and it's their mission to help you find that ideal match.

THE DIRECTOR COLLECTION

By working closely with musicians and audiophiles, we have created a full-bodied, smooth audio experience that artfully emerges from the walls and ceilings.

THE PROFESSIONAL COLLECTION

Elevate the commercial audio experience with premium in-ceiling loudspeaker integration that offers a discreet and luxurious auditory performance.

ORIGIN ACOUSTICS

A Speaker for Every Space

ARCHITECTURAL SUBWOOFERS

Create a stunning architectural audio installation with in-wall and in-ceiling subwoofers, nearly invisible from sight.

POWERED SUBWOOFERS

AMPLIFIERS

AMBISONIC RIBBON SPEAKER

MARINE LOUDSPEAKERS

Choose from a wide selection of expertly crafted sound systems, including marine loudspeakers for your luxury vessel.

ORIGIN ACOUSTICS

A Speaker for Every Space

OUTDOOR LOUDSPEAKERS

BOLLARD LOUDSPEAKER

Designed for long-lasting outdoor installation, with the subwoofer and wiring all safely buried beneath the surface for a seamless look and unfailing connectivity.

SONOS

The Perfect Sound for Every Setting

If you're not ready to part with your speaker system, Sonos offers a solution to add new-age control to your classic sound setup. As a leader in whole-home audio control, Sonos has a way of bringing every room of the home together and plays nice with music integrations such as Apple Airplay, Spotify, Pandora, and so much more.

SURROUND SOUND SPEAKER SYSTEMS

Nex-gen acoustics with detailed stereo separation and deep bass at all volume levels for a totally immersive audio experience.

ERA 100

Give your music the delivery it deserves with this finely tuned stereo sound and rich bass.

ERA 300

Six optimally-positioned drivers from every side and powered by Dolby Atmos to generate a surround-sound audio experience.

SONOS

The Perfect Sound for Every Setting

SOUNDBARS

Don't let its size fool you — heighten the home theater experience with spatial audio that offers you a multidimensional soundstage for maximum effect.

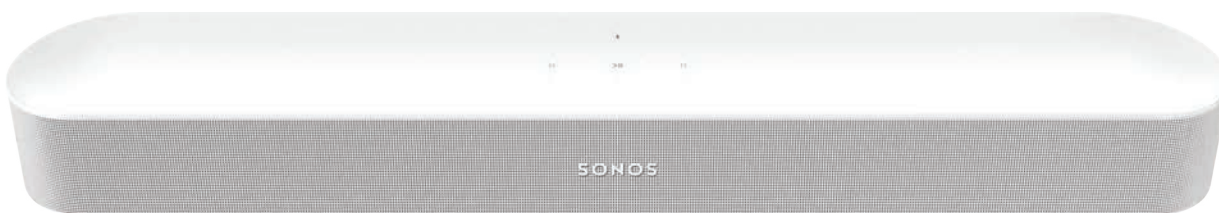

ARC

Bring your entertainment to life in mere minutes with this brilliantly realistic soundbar's easy installation.

RAY

Small but mighty, this compact soundbar nails the basics for TV, music, and gaming enthusiasts.

BEAM

Turn your living room into a smart home theater with this dynamic soundbar that features voice control from Amazon Alexa or Google Assistant.

SUBWOOFERS

SUB MINI

Big things come in little packages with this compact subwoofer that offers big bass possibilities.

SUB (GEN 3)

This wireless subwoofer's two force-canceling drivers eliminates vibrations and rattles for the highest quality sound output.

SONOS

The Perfect Sound for Every Setting

WIRELESS & PORTABLE SPEAKERS

Engineered with high fidelity to enhance the listening experience with spectacular detail.

FIVE

Elevate your listening experience with this powerful, wireless Hi-Fi speaker that promises vivid stereo separation, clean bass, and incredibly detailed vocals.

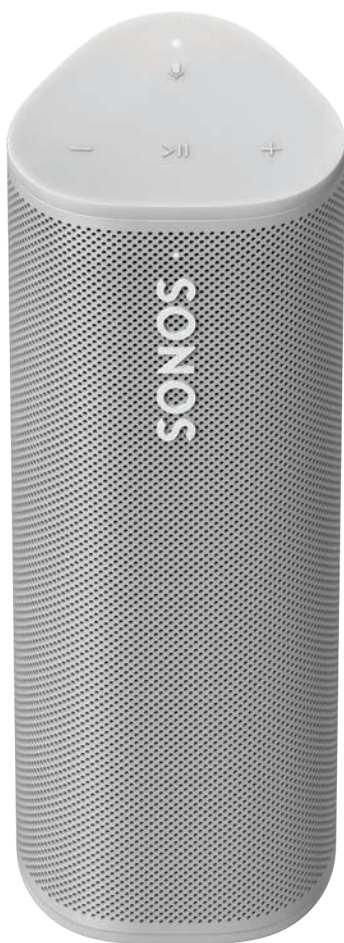

ONE/ONE SL

Music lovers can call the shots with this smart speaker, offering voice control options from Amazon Alexa and Google Assistant.

MOVE

Take it with you when you go: this powerful, portable speaker offers up to 24 hours of playback time. Upgrade to the Move 2 for better sound, a longer battery life, and quicker Bluetooth 5.0 connection capabilities.

ROAM

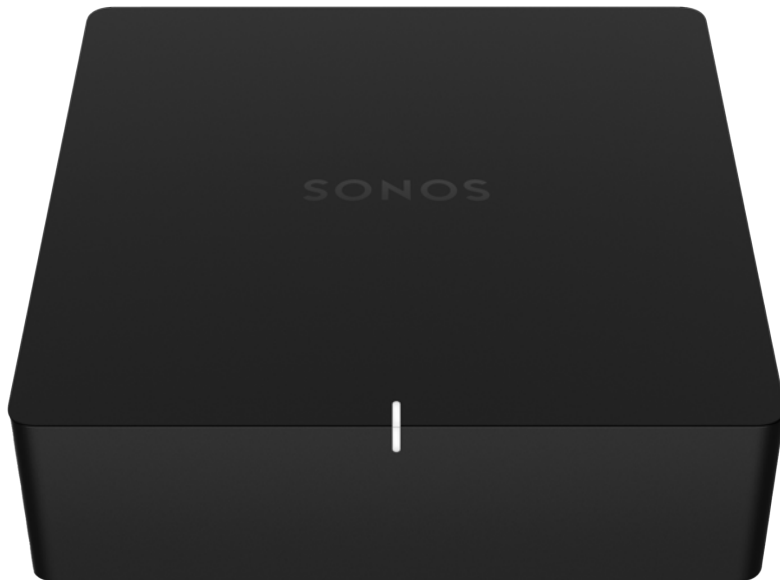

Portable? Check. Lightweight? Check. Up to 10 hours of astonishing sound? Check. Outdoor-ready? Check.

SONOS

The Perfect Sound for Every Setting

DIGITAL MEDIA PLAYER

A WiFi network streamer for your turntable audio to play loud and clear over Sonos speakers.

PORT

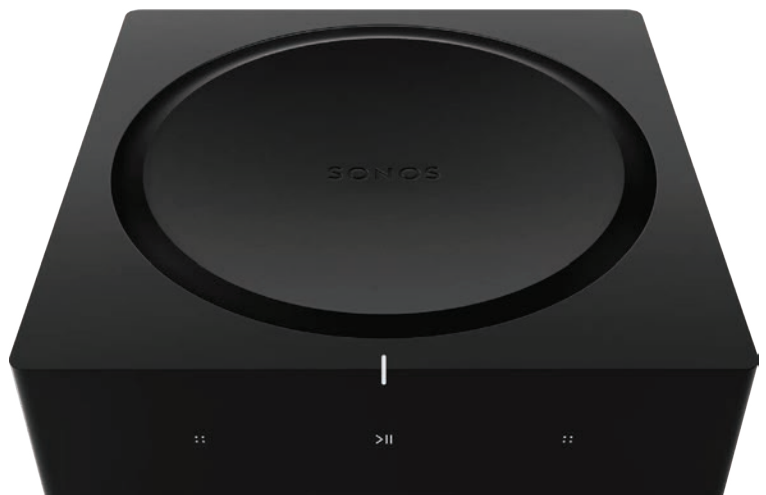

A versatile streaming component to stream music from your traditional stereo throughout your sound system.

AMPLIFIERS

Turn it up with a versatile amplifier for streaming all of your favorite songs in multiple areas inside of the home – and out.

AMP

Turn it up with this powerful, 125-watt-per-channel amplifier to listen at higher volumes with clear, undistorted sound.

DIGITAL DISPLAYS & HOME THEATERS

Depending on your home design or personal preferences, we partner with several brands to offer small TVs for personal viewing to large home theater-style projector screens, all while providing professional installation.

Looking for a video wall or specialty furniture for your new home theater? We work with some of the best in the business to make your dreams a reality. Plus, these digital displays seamlessly pair with streaming solutions like AppleTV, Roku, Chromecast, etc.

NETWORKING SOLUTIONS

WiFi networks can only support a finite amount of devices at one time, which tends to add up quickly both at home and in the office. That's why we provide a variety of state-of-the-art networking products such as range extenders, additional WiFi access points, routers, secure servers, and more.

IN THIS SECTION

eero WiFi System

Ubiquiti Networks

weBoost (Wilson Electronics)

EERO WIFI SYSTEM

Increased internet efficiency and reduced network congestion

Best

EERO PRO 6E

eero's first WiFi 6E system that enables access to the 6 GHz band, supporting 100+ connected devices and covering up to 6,000 sq ft.

Better

EERO 6+

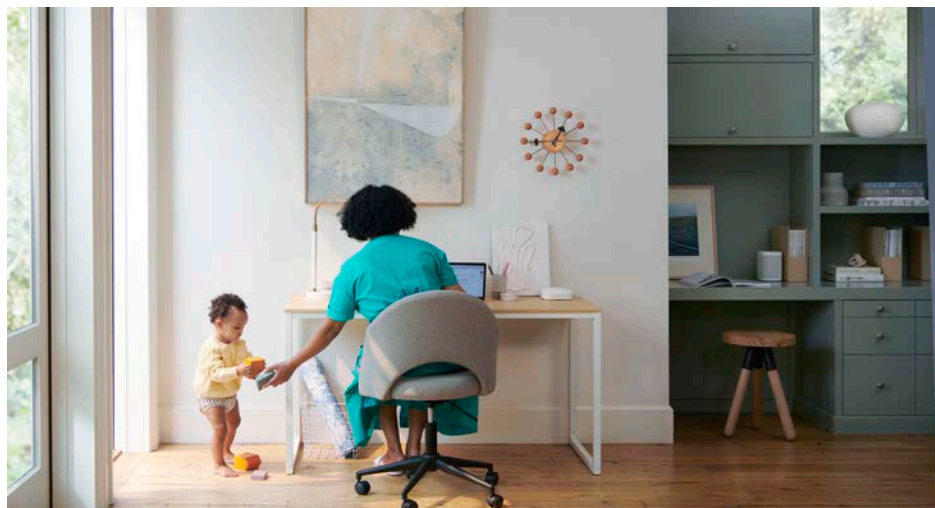

eero's most affordable gigabit system that supports enough bandwidth for 75+ connected devices and covers up to 4,500 sq ft.

Good

EERO 6

A fast, reliable WiFi 6 solution that supports speeds up to 500 Mbps.

UBIQUITI NETWORKS

Building AI-focused, value-generating solutions for wireless data communication and wired products

Effortlessly manage your smart home technology with Ubiquiti products for a strong, secure, and reliable network solution with no delays or downtime, regardless of how many devices you have in your smart ecosystem.

WEBOOST (WILSON ELECTRONICS)

Enjoy better connectivity within the walls of your home, all with the help of a small external antenna that reaches far to bring a stronger cell signal indoors.

HOME COMPLETE

How it works

- The outside antenna pulls cell signal from the closest tower
- The booster amplifies that signal
- The inside antenna broadcasts the signal throughout the home

What's included:

- Home Complete Booster
- Outside Directional Antenna
- Inside Panel Antenna
- Power Supply
- Wall Mount Brackets
- 60' RG11 Cable + 75' RG11 Cable
- Cable Mounting Clips
- Outside Mounting Bracket

SMART SECURITY SOLUTIONS

Gone are the days of depending on neighbors to alert us to suspicious behaviors occurring around our home when we're not around to keep an eye on things. Today, smart security systems offer us unparalleled connectivity, control, and accessibility in order to feel in control of our homes and businesses, 24/7.
